

Healthy Volunteers

A 2 Part Study to Assess the Relative Bioavailability of Tablet Formulation Compared to Capsule Formulation and the Effect of Food and Taste Assessment on the Tablet Formulation in Healthy Participants

Trial Status
Completed

Trial Runs In
1 Countries

Trial Identifier
NCT03847987 BP40950

The source of the below information is the publicly available website ClinicalTrials.gov. It has been summarised and edited into simpler language.

Trial Summary:

This is a two-part, open-label, healthy volunteer study. Part I will investigate the relative bioavailability of capsule and tablet formulations of RO7017773. Part II will explore how the taste of the tablet formulation is perceived with and without added sweetener/flavoring.
